

Nothing to do on Tuesday before Late Start?  
**Before School Drawing Class@ Calle**

## From **Realistic Drawing** to **Animation**

..... Imagine what you can create with your art skills .....

You will experience the best of both worlds. Use charcoal and graphite to sharpen observation skills and translate your 3D artistic vision on paper. You have the option to stay on the "realistic drawing track" or to transfer your skills to animation. You will learn character design and physics or biomechanics involved in fun animation scenarios.

A proven system that shows you the secrets to **draw like master artists, plan like engineers, and have fun like animators** by training the right (creative) side of your brain.

**Every Tuesday** (before late start)
